

„PCR – 2000 Glanz“, Art.-Nr. 2280

Application overview

Deep-acting, environmentally friendly cleaner for vehicles.
For cleaning heavily soiled truck tarpaulins, truck paints, truck bodies, truck undercarriages and truck engine compartments
Also applicable to heavily soiled areas, e.g. Glass, ceramics, plastics, painted surfaces, tiles.

**Solvent-free, neither combustible nor explosive,
complies with the law on detergents and cleaners.**

my advantage:

- Basic cleaning of extremely soiled vehicle superstructures, truck paints, truck tarpaulins and truck chassis. Removes dirt from the truck tarpaulin and truck paint.
- Removes typical stubborn car soiling of all kinds such as oils, greases, resins, fuels, soot, diesel stains, insects and brake dust.

Application:

- Dosing: 1 : 2 bis 1 : 60
Light pollution 1 : 40 bis 1 : 50
Normal pollution 1 : 15 bis 1 : 30
Strong pollution: 1 : 2 bis 1 : 10
Spray with the spray dispenser T 620 or compressed air device, or mix in the bucket and apply with the brush. Spray dry surface from bottom to top, let it work for a few minutes, loosen extreme dirt with the brush.
Then with high pressure with cold water or up to max. about 50 ° C and max. 100 bar cumshot.

At the recommended dilution, paint, glass, plastic and rubber will not be affected.
For sensitive surfaces, check for compatibility at a hidden point.

Environmental behavior

- biodegradable, free from organically bound halogen compounds.
- Registered with the Federal Environment Agency - No. 0460 0048

ENVIRONMENTALLY FRIENDLY - BIOLOGICAL - TIMELY - ENTEMPULATING
