

SENTINEL

'UNBREAKABLE' POLYCARBONATE LENS

with lifetime guarantee.

HIGH EFFICIENCY PREMIUM 'BIN' LEDS

maximise illumination levels considering power input.

DYNAMIC DRIVE MODULATION

maintains optimal light output considering the environmental and thermal conditions of the lamp.

OPTIONAL POSITION / SIDE LIGHT FUNCTION

included across Standard products. White (Reg 7 approved) and amber colours.

HARDCOAT LACQUER

protects against lens deterioration, including stone chips.

5000K COLOUR TEMPERATURE

and 80 CRI maximises sharpness and definition.

PREMIUM QUALITY, SATIN-BLACK POWDER COAT

finish completed in-house.

BLACK / CHROME APPEARANCE

to suit different vehicles and applications.

CAE OPTIMISED HEATSINK

offers improved thermal dynamics for maximum light output while preserving LED longevity.

SUPPLIED WITH A2 STAINLESS STEEL FASTENERS

with automotive grade black coating.

CORROSION RESISTANCE.

DIE-CAST ALUMINIUM MOUNTING BRACKETS

available in 'slim' or 'wide' format.

ROAD-LEGAL CERTIFICATION

allows for electrical connection direct to the vehicle high beam (and position / side light) function.

COMBINATION SPOT / WIDE OPTICS

vacuum-metallised for maximum reflectivity.
